GUANGDONG ZHONGHUAN VACUUM EQUIPMENT Co. Ltd. - www.gdvacuum.com - Changpai Street NO.60, 526020 Zhaoqing, [China](#)

Alex LI, Email: zhonghuan@gdvacuum.com, Tel. 86-0758-2832524, Fax 86-0758-2855892

products:

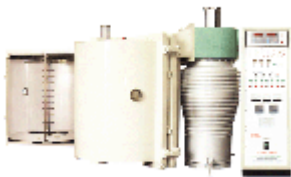

[Vacuum Coating Equipment: Optical Vacuum Coating Equipment, Ion Vacuum Coating Equipment, Roll Vacuum Coating Equipment, Evaporation/Manetron Vacuum Coating Equipment, Magnetron Sputter Coating Product Line.](#)

company profile:

Guangdong Zhonghuan Vacuum Equipment company, the largest vacuum equipments manufacturer in south China with over thirty years experience of management, development and production of vacuum pumps and vacuum coating machines. With many talented technicians and professional engineers in vacuum and mechanical field, the company has developed more than 100 new items of products enabling itself to take part in international competition with ability to develop and design various types of vacuum equipments as

per clients requirement and needs.

The company is specialized in design and manufacturing of vacuum coating equipments and vacuum pumps that can be applied in many fields such as in military defense, in science & technology research, in industry and agriculture, etc.

JINGHONG VACUUM THIN FILM (SHENZHEN) CO., LTD - www.jh-vac.com - B12, 2nd Industrial district, Shiao, DaLang, Longhua, Bao'an district, 518129 Shenzhen, China, [China](#)

Hellen CHU, Email: szjhvac@gmail.com, Tel. +86-755-61186225, Fax +86-755-61186223

products:

[PVD vacuum coating equipment and system:](#)

Evaporation deposition coating equipment, Magnetron sputtering deposition coating equipment, Arc charge deposition coating equipment, Multiple functional coating equipment and system

Continuous coating on-line plant: ITO transparent conductive glass coating production line, Large scale plastic flat coating production line

Cleaning system series: QXG-450JH Flat glass cleaning production line, QXP-950JH PMMA/PC cleaning production line

Vacuum component and sputtering target material

company profile:

We have decades of experience designing and manufacturing vacuum systems. Our developing capability allows for multiple process systems to be built in parallel with tight control of cost and schedule. We also provide retrofit equipment including fully automated control vacuum systems in customized and related vacuum parts and target materials.

DCL VACUUM COATING CORPORATION - www.dclvacuum.com - ChiGang Industrial Area, 510000 Guangzhou, [China](#)

Lewis CHEN, Email: dclvacuum@gmail.com, Tel. +86-20-32782702, Fax +86-20-61235151

products:

Evaporation Sputtering Coater, Car Motorcycle Wheel Sputtering Coater,
Multi-Arc Ion Coater, Optics Coater, Rotary Coater, Sputtering Coating Line, Mirror Coater

company profile:

In China, we provide the widest range of vacuum coating equipments to our customers since 1982. Our products can do ion plating, magnetron sputtering plating and thermal evaporation plating with all kinds of chamber structures and components. There are more than 200 customers using our machines.
